Overview. A buffering agent can be either a weak acid or weak base. Buffering agents are usually added to water to form a buffer solution, which only slightly changes its pH in response to other acids and bases being combined with it, particularly a strong acid or a strong base. Another example is buffered aspirin which has a buffering agent, such as MgO or CaCO<sub>3</sub>, that will help maintain the ...

### Buffering agent - Wikipedia

Bufferbloat is a cause of high latency in packet-switched networks caused by excess buffering of packets. Bufferbloat can also cause packet delay variation (also known as jitter), as well as reduce the overall network throughput. When a router or switch is configured to use excessively large buffers, even very high-speed networks can become practically unusable for many interactive applications ...

It should be noted that in Oracle9i this PL/SQL procedure does not work with all binary files. This is due to Oracle bug (BUG#: 2883782). The PL/SQL procedure that I use to write binary (raw) data out is UTL\_FILE.PUT\_RAW. This procedure, along with UTL\_FILE.GET\_RAW, was introduced in Oracle 9i Release 2 as previous versions of UTL\_FILE only worked with TEXT files.
