A roundoff error, also called rounding error, is the difference between the result produced by a given algorithm using exact arithmetic and the result produced by the same algorithm using finite-precision, rounded arithmetic. Rounding errors are due to inexactness in the representation of real numbers on a computer and the arithmetic operations done with them.

Round-off error - Wikipedia

ND EEE.pdf | Educational Assessment | Electronics

In mathematics, a spline is a function defined piecewise by polynomials. In interpolating problems, spline interpolation is often preferred to polynomial interpolation because it yields similar results, even when using low degree polynomials, while avoiding Runge's phenomenon for higher degrees.. In the computer science subfields of computer-aided design and computer graphics, the term spline ...
