Creation of artifacts as a vehicle for design research - CORE

Design: Creation of Artifacts in Society. The emphasis of the course is the basic design process: define, explore, select, and refine. You, the student, bring to the course your particular interests and expertise related to, for instance, engineering, furniture, fashion, architecture, or products.

Design: Creation of Artifacts in Society | Coursera

Hello, classmates! I am writer, and I like to design websites. I teach creative writing at the University of Pennsylvania, the same university that brings us Professor Ulrich's course through Coursera. I wanted to take this class because I'm fascinated with design and yet working with actual objects is a little out of my comfort zone.

PROJECT PORTFOLIO | Design: Creation of Artifacts

In the modern world of artifact creation and manufacturing typically many agents will be involved in the process of creating an artifact or indeed designing and making a new artifactual kind.

A Model of Artifact Creation Reconsidered - CEUR-WS.org

Design-based learning is an approach that emphasizes designing (creating things, not just using or interacting with things), personalizing (creating things that are personally meaningful and relevant), collaborating (working with others on creations), and reflecting (reviewing and rethinking one's creative practices).
