

mental arithmetic book 4 pdf

Mental calculation comprises arithmetical calculations using only the human brain, with no help from any supplies (such as pencil and paper) or devices such as a calculator. People use mental calculation when computing tools are not available, when it is faster than other means of calculation (such as conventional educational institution methods), or even in a competitive context.

Mental calculation - Wikipedia

An excellent series of books for stimulating the thought processes required for mental arithmetic/tables application - 10 minutes a day can make a real difference and the steady revision gives pupils confidence for numeracy lessons at school.

The Charlotte Mason Elementary Arithmetic Series: Book 1

The Trachtenberg system is a system of rapid mental calculation. The system consists of a number of readily memorized operations that allow one to perform arithmetic computations very quickly. It was developed by the Russian Jewish engineer Jakow Trachtenberg in order to keep his mind occupied while being in a Nazi concentration camp.. The rest of this article presents some methods devised by ...
