Classification of gait patterns between patients with Parkinson's disease and healthy controls using phase space reconstruction (PSR), empirical mode decomposition (EMD) and neural networks

Neural Networks | ScienceDirect.com

Artificial neural networks (ANN) or connectionist systems are computing systems vaguely inspired by the biological neural networks that constitute animal brains. The neural network itself is not an algorithm, but rather a framework for many different machine learning algorithms to work together and process complex data inputs. Such systems "learn" to perform tasks by considering examples ...

Artificial neural network - Wikipedia

IEEE Transactions on Neural Networks is devoted to the science and technology of neural networks, which disclose significant technical knowledge, exploratory developments, and applications of neural networks from biology to software to hardware.. This Transactions ceased production in 2011. The current retitled publication is IEEE Transactions on Neural Networks and Learning Systems.

IEEE Xplore: IEEE Transactions on Neural Networks

Neural Networks is the archival journal of the world's three oldest neural modeling societies: the International Neural Network Society (INNS), the...

Neural Networks - Journal - Elsevier

There are many types of artificial neural networks (ANN).. Artificial neural networks are computational models inspired by biological neural networks, and are used to approximate functions that are generally unknown. Particularly, they are inspired by the behaviour of neurons and the electrical signals they convey between input (such as from the eyes or nerve endings in the hand), processing ...

Types of artificial neural networks - Wikipedia

IEEE Transactions on Neural Networks and Learning Systems publishes technical articles that deal with the theory, design, and applications of neural networks and related learning systems.

IEEE Transactions on Neural Networks and Learning Systems

Lyme disease is the most common tick-borne disease in North America, and is transmitted by blacklegged ticks carrying Borrelia bacteria. Infection by a tick takes at least 24 hours because of the time required for the bacteria to travel from the tick midgut to its salivary glands.

Design Of Fuzzy Controllers - Industrial Automation Training

NeuralWorks Predict. NeuralWorks Predict is an integrated, easy-to-use, state-of-the-art tool for quickly creating and deploying prediction, classification, or clustering neural networks. Predict combines neural

network technology with genetic algorithms, statistics, and fuzzy logic to automatically find optimal or near-optimal solutions for a wide range of problems.

Welcome to IEEE TENCON 2016! TENCON is a premier international technical conference of IEEE Region 10, which comprises 57 Sections, 6 Councils, 21 Subsections, 514 Chapters and 1159 Student Branches in the Asia Pacific region. The theme for TENCON 2016 is Technologies for Smart Nation. TENCON 2016 is expected to bring together researchers, educators, students, practitioners, technocrats and ...
