A New Look Inside the Theory of the Linear Approximation: Gravity Assists and Flybys. Authors: Lluís Bel
Comments: 7 Pages. Whitehead's description of the gravitational field of a static point mass source is equivalent to Schwarzschild's solution of Einstein's equations.

Renormalization is a collection of techniques in quantum field theory, the statistical mechanics of fields, and the theory of self-similar geometric structures, that are used to treat infinities arising in calculated quantities by altering values of quantities to compensate for effects of their self-interactions. However, even if it were the case that no infinities arise in loop diagrams in ...

Renormalization - Wikipedia

Time is the indefinite continued progress of existence and events that occur in apparently irreversible succession from the past through the present to the future. Time is a component quantity of various measurements used to sequence events, to compare the duration of events or the intervals between them, and to quantify rates of change of quantities in material reality or in the conscious ...
