A nonpartisan blanket primary is a primary election in which all candidates for the same elected office, regardless of respective political party, run against each other at once, instead of being segregated by political party. It is also known as a jungle primary, qualifying primary, or top-two primary.. The so-called Louisiana primary, actually a general election, is similar with a runoff if ...

California Agriculture - Current issue and featured articles. Multiple species of Phytophthora have been identified in production facilities of plants used in reforestation and restoration projects. There's a risk that infected plant stock will lead to Phytophthora species establishing and spreading in habitats that, having never experienced their presence, may be highly susceptible to infection.
