Decision-Making and Emergency Responses - Inside Mines

1 Define Your Problem . Before you define a problem, it might feel vague or confusing. Writing out your problem will help to organize information, see it from new angles, and identify the most important issues. When and where does your problem occur? What are the causes of your problem? Think about all the possible causes. Consider your own behavior, as well as external factors.

Problem Solving - Therapist Aid

The 8-D method of problem solving is appropriate in "cause unknown" situations and is not the right tool if concerns center solely on decision-making or problem prevention. 8-D is especially useful as it results in not just a problem-solving process, but also a standard and a reporting format. Does this problem warrant/require an 8D?
