Studies. In 1975 Robin Lakoff identified a "women's register", which she argued served to maintain women's (inferior) role in society. Lakoff argued that women tend to use linguistic forms that reflect and reinforce a subordinate role. These include tag questions, question intonation, and "weak" directives, among others (see also Speech practices associated with gender, below).

A job interview is an interview consisting of a conversation between a job applicant and a representative of an employer which is conducted to assess whether the applicant should be hired. Interviews are one of the most popularly used devices for employee selection. Interviews vary in the extent to which the questions are structured, from a totally unstructured and free-wheeling conversation ...

1. Introduction. Influenza viruses are an important cause of respiratory tract infections and responsible for 3-5 million clinical infections and 250,000-500,000 fatal cases annually (Stohr, 2002, WHO, 2011b). Infections with influenza virus evoke host immune responses which result ultimately in abortion of virus replication.
