Another classic Jim. Fear of loss is the single most common idea that prevents people from investing in the stock market. It's fantastic that blogs like yours are out here educating the public.

Stocks " Part XXXII: Why you should not be in the stock market

Bar stock, also (colloquially) known as blank, slug or billet, is a common form of raw purified metal, used by industry to manufacture metal parts and products. Bar stock is available in a variety of extrusion shapes and lengths. The most common shapes are round (circular cross-section), rectangular, square and hexagonal or hex.

Bar stock - Wikipedia

Lumber (American English; used only in North America) or timber (used in the rest of the English-speaking world) is a type of wood that has been processed into beams and planks, a stage in the process of wood production. Lumber is mainly used for structural purposes but has many other uses as well. There are two main types of lumber. It may be supplied either rough-sawn, or surfaced on one or ...
