"God of the gaps" is a theological perspective in which gaps in scientific knowledge are taken to be evidence or proof of God's existence. The "gaps" usage was made by Christian theologians not to discredit theism but rather to point out the fallacy of relying on teleological arguments for God's existence. Some use the phrase as a criticism of theological positions, to mean that God is used as ...

The Scientific Revolution was a series of events that marked the emergence of modern science during the early modern period, when developments in mathematics, physics, astronomy, biology (including human anatomy) and chemistry transformed the views of society about nature. The Scientific Revolution took place in Europe towards the end of the Renaissance period and continued through the late ...

In The Shadows of Glories Past Jihad for Modern Science in Muslim Societies, 1850 to The Arab Spring, 1st Edition. By John W. Livingston. The title of this volume implies two things: the greatness of the scientific tradition that Muslims had lost, and the power of the West, in whose threatening shadow reformers now labored to modernize in order to defend themselves against those very powers ...
