self injury disorder now pdf

Self-harm is not typically suicidal behaviour, although there is the possibility that a self-inflicted injury may result in life-threatening damage. Although the person may not recognise the connection, self-harm often becomes a response to profound and overwhelming emotional pain that cannot be resolved in a more functional way.

Self-harm - Wikipedia

The diagnosis for someone who self-injures can only be determined by a licensed psychiatric professional. Self-injury behaviors can be a symptom of other mental illnesses such as: personality disorders (esp. borderline personality disorder); bipolar disorder (manic depression); major depression; anxiety disorders (esp. obsessive-compulsive disorder); and psychotic disorders such as schizophrenia.

Self Harm - Self Mutilation - Self Injury

What is self-injury? Nonsuicidal self-injury (NSSI) is the deliberate, self-inflicted destruction of body tissue resulting in immediate damage, without suicidal intent and for purposes not culturally sanctioned. Self-injury can include a variety of behaviors but is most commonly associated with: intentional carving or cutting of the skin

About Self-Injury and Recovery

While self-injury may bring a momentary sense of calm and a release of tension, it's usually followed by guilt and shame and the return of painful emotions.

Self-injury/cutting - Symptoms and causes - Mayo Clinic

Self-hatred (also called self loathing) refers to an extreme dislike or hatred of oneself, or being angry at or even prejudiced against oneself. The term is also used to designate a dislike or hatred of a group, family, social class, or stereotype to which one belongs and/or has. For instance, "ethnic self-hatred" is the extreme dislike of one's ethnic group or cultural classification.

Self-hatred - Wikipedia

Borderline personality disorder (BPD), also known as emotionally unstable personality disorder (EUPD), is a long-term pattern of abnormal behavior characterized by unstable relationships with other people, unstable sense of self and unstable emotions. There is often dangerous behavior and self-harm. People may also struggle with a feeling of emptiness and a fear of abandonment.
