This paper lists those key attributes of IT Service Management (ITSM) Systems that must be in place to help ensure its effectiveness and efficiency and which can be used to determine the factors for the operations of ITSM systems as well as their evaluation for utility and warranty

### **ITSM - IT Service Management service briefs, white papers**

Operations research, or operational research in British usage, is a discipline that deals with the application of advanced analytical methods to help make better decisions. Further, the term 'operational analysis' is used in the British (and some British Commonwealth) military as an intrinsic part of capability development, management and assurance.
