In finance, a short sale (also known as a short, shorting, or going short) is the sale of an asset (securities or

other financial instrument) that the seller does not own. The seller effects such a sale by borrowing the asset in order to deliver it to the buyer. Subsequently, the resulting short position is "covered" when the seller repurchases the asset in a market transaction and delivers the ...

The story changes: first it was quality control, then equipment failure, now a smart card? Jennifer Marohasy reports that the thermometers are working fine, but a smart card has been added to some to filter out "spurious cold" readings. In particular, the Minister [Josh Frydenberg] was told that while the Goulburn weather station accurately measured the local temperature as minus 10.4 at ...
