## **Speculative Buffer Overflows: Attacks and Defenses**

Speculation is the purchase of an asset (a commodity, goods, or real estate) with the hope that it will become more valuable in the near future. In finance, speculation is also the practice of engaging in risky financial transactions in an attempt to profit from short term fluctuations in the market value of a tradable financial instrumentâ€”rather than attempting to profit from the underlying ...

Introduction. MapReduce is a programming model designed for processing large volumes of data in parallel by dividing the work into a set of independent tasks.

## **Module 4: MapReduce - Yahoo Developer Network**

The scientific method is the process by which science is carried out. As in other areas of inquiry, science (through the scientific method) can build on previous knowledge and develop a more sophisticated understanding of its topics of study over time.
