The Natural History (Latin: Naturalis Historia) is a book about the whole of the natural world in Latin by Pliny the Elder, a Roman author and naval commander who died in 79 AD.. It is one of the largest single works to have survived from the Roman Empire to the modern day and purports to cover all ancient knowledge. The work's subject area is thus not limited to what is today understood by ...

The theory of natural monopoly is an economic fiction. No such thing as a "natural" monopoly has ever existed. The history of the so-called public utility concept is that the late 19th and early 20th century "utilities" competed vigorously and, like all other industries, they did not like competition.
