The adjective data-driven means that progress in an activity is compelled by data, rather than by intuition or by personal experience.. Data-driven may refer to: . Data-driven programming, computer programming in which program statements describe data to be matched and the processing required; Data-driven journalism, a journalistic process based on analyzing and filtering large data sets

Data-driven - Wikipedia

In computer programming, data-driven programming is a programming paradigm in which the program statements describe the data to be matched and the processing required rather than defining a sequence of steps to be taken. Standard examples of data-driven languages are the text-processing languages sed and AWK, where the data is a sequence of lines in an input stream “ these are thus also ...
