Economics (/   k  ™   n   m   k s, i  k  ™-/) is the social science that studies the production, distribution, and consumption of goods and services.. Economics focuses on the behaviour and interactions of economic agents and how economies work. Microeconomics analyzes basic elements in the economy, including individual agents and markets, their interactions, and the outcomes of interactions.

Curriculum Vitae - Economics

Investment or investing means that an asset is bought, or that money is put into a bank to get a future interest from it. Investment is total amount of money spent by a shareholder in buying shares of a company. In economic management sciences, investments means longer-term savings. It is a term used in business management, finance and economics, related to saving or deferring consumption.

The misery index is an economic indicator, created by economist Arthur Okun. The index helps determine how the average citizen is doing economically and it is calculated by adding the seasonally adjusted unemployment rate to the annual inflation rate. It is assumed that both a higher rate of unemployment and a worsening of inflation create economic and social costs for a country.
