

**the united states government pdf**

The United States Constitution requires government spending be approved in bills passed by the United States Congress. Some government functions such as the Federal Reserve System are completely self-funded. Others, like Social Security and Medicare, are partially self-funded but may be subject to administrative shutdowns and failures if the government fails to meet its financial obligations.

**United States federal government shutdown of 2013 - Wikipedia**

The United States Constitution is the supreme law of the United States. The Constitution, originally comprising seven articles, delineates the national frame of government. Its first three articles embody the doctrine of the separation of powers, whereby the federal government is divided into three branches: the legislative, consisting of the bicameral Congress (Article One); the executive ...
