A market trend is a perceived tendency of financial markets to move in a particular direction over time. These trends are classified as secular for long time frames, primary for medium time frames, and secondary for short time frames. Traders attempt to identify market trends using technical analysis, a framework which characterizes market trends as predictable price tendencies within the ...

Share the news! Two beautiful new beading books in Lark Jewelry & Beading's acclaimed Beadweaving Master Class series have just released to local retailers, as well as on Amazon and BN.com: Maggie Meister's Classical Elegance and Rachel Nelson-Smith's Bead Riffs.. To celebrate, we're enjoying an assortment of chocolates selected from my file cabinet drawer.

Great giveaway of two sets of six signed beading books

In probability theory and statistics, a unit root is a feature of some stochastic processes (such as random walks) that can cause problems in statistical inference involving time series models. A linear stochastic process has a unit root, if 1 is a root of the process's characteristic equation. Such a process is non-stationary but does not always have a trend.

The best way to check the reliability of climate models is to compare projections to actual observations. However, this is a catch-22. You need a decent time period to accurately discern climate trends amid the noise of weather fluctuations. Over that time, the climate model would've been superseded by new models running on faster computers at higher resolutions using better understood science.
